

Dr. Aaron White is a Health Scientist Administrator in the Division of Epidemiology and Prevention Research at the National Institute on Alcohol Abuse and Alcoholism (NIAAA). He received his PhD in biological psychology from Miami University in 1999. His graduate research focused on the brain mechanisms underlying alcohol-induced anterograde amnesia (i.e., “blackouts”). After completing two years of post-doctoral training in the Department of Psychiatry at Duke University Medical Center in 2001, he joined the faculty as an Assistant Professor, an appointment he held until accepting a position at NIAAA in 2008. At NIAAA, Dr. White oversees funded research studies on college and underage drinking prevention.
